

Collecting

Bruno Bieri has been collecting rock crushers, all built by him, for the last 30 years. A large variety of lowboy tractor-trailer units from Nooteboom and others compliment his unique collection ...

Carsten Bengs finishes the development story of the quick erecting cranes from Liebherr in this issue. He introduces three crane types, trailblazers in the original as well as in model form ...

Models

35 years ago, the Caterpillar 992C showed up at quarry operations for the first time. In our lead story, we introduce the new, red-hot 1:48 scale model from CCM ...

The Hamm HW 90B road roller has been in production for over 30 years at the Tirschenreuther factory in Germany. WSI has obliged the collecting community with the release of a model in 1:50 scale ...

Current

The Palfinger PK 100002 is a huge truck mounted crane. The new model from Conrad is just as impressive as the original. A case for our specialist Carsten Bengs ...

The firm of Ladegüter Bauer is always good for a great 1:87 scale display diorama at the toy fair in Nuremberg. Last year's offering is in a quarry setting and shows the whole process, from the quarrying of the stone to the transportation off site ...
