Collecting

Hans-Jakob Baerlocher collects Tekno models with a passion. What started out with four models has grown into a remarkable collection ...

Albert Schmid had to jump over some difficult hurdles to finish his research piece on the Allis-Chalmers HD41. On top of that he had to wait patiently for the winter sun to appear. The results are worthwhile looking at ...

Models

The NZG model of the Komatsu PC 2000-8 with scooping bucket has been available for over a year. The wait for the version with the backhoe attachment has been long, until today ...

A small mobile crane with some great features has been realised by WSI. It is the LTM 1050-3.1. Our crane specialist Carsten Bengs is excited about the new arrival ...

Breaking news

It was a great challenge to find photos of the Komatsu 2000-8. Urs Peyer had his hands full to find the necessary information. In the end pictures came from around the globe ...

It was easier to get shots from the rows upon rows of machines at the annual HCEA show in the U.S. The famous old timers are being maintained and cared for by enthusiasts with a lot of love and pride ...
