Collecting

Robby Bosch has been collecting for 45 years and is a human construction machine encyclopedia. His museum-like collection is a rare treat to see ...

Albert Schmid presents the Fiat-Allis FE40 from Old Cars in yet another Eye Candy installment. His extensive research discovered that the detailing of the model was far ahead of its time ...

Models

WSI shows off a four axle low-boy trailer, the first that is a result of co-operation between WISI and Broshuis. Carsten Bengs took a close up look at the model ...

After a long break, NZG is again offering the CIFA H45K concrete pumper. The model is built upon a completely new chassis with a Mercedes Arocs cabin. We thought that the pump warranted a closer look ...

Current

Crane pads for tracked cranes and steel plates for mobile cranes can be made without too much trouble. Michael Compensis describes his method ...

The newest project from Urs Peyer could once again be described as "recycling". Of course, the finished product does not reflect that in any way. The finished product, a Cat D6K tracked welder, is the result of the conversion ...
