- Model history – Fiat models from Mercury

Construction

- 12** Collector's portrait – Fabio Canu **6**
- 22** Volvo A60H from WSI **16**
- 26** Caterpillar Evolution series from Diecast Masters **20**
- 30** Liebherr T55-7s from Conrad **23**
- 35** Liebherr RL66 from IMC **24**
- 36** Historic construction site **42**
- 38** Building a diorama – a gravel plant part IV **44**

Our leading themes: The Volvo A60H from WSI impresses because of its dimensions alone. However, also impressive is the scratch-built Scania 143M from René Tanner. Diecast Masters have re-worked his historical models and Hans Witte takes an in-depth look at the Volvo F89.

Markus Lindner
