Collecting

An extraordinary collection has found its way into a museum that is not open to public viewing. Heinz Eberhard's collection at the Ebianum is presented in a most tasteful way ...

Thomas Wilk goes back in time with the Caterpillar D7 in 1:24 by Reuhl, back to the roots of construction machine collecting. The tracked dozer was not designed to be a collector's object but rather to be a travelling salesman's sample ...

Models

With the Mobicone MCO 9 Evo, all different kinds of crushers from Kleemann are now available in model form. The tracked conical crusher model was made by Conrad ...

CCM's 1:48 Caterpillar 245 ME as a large volume excavator version is more than a new issue of an already existing model. In addition to the new equipment, the basic machine was also upgraded ...

Current

Himobo is producing one of the best known 'yard cranes', the Demag V70, from days past. It is an exclusive model for MSW. Carsten Bengts tested the model ...

Markus Lindner has found an unexpected use for his holiday snaps. They are ideal as background pictures for small dioramas. With them he is able to tell a complete story of a heavy-duty transport in Spain ...
