Trucks & Construction Issue 5-2017
 Models of trucks, construction machines, cranes, haulage
 Contest included
 Scratch built 1:50 Fiat 690 T1
 Conrad 1:50 Mecalac 9MWR
 Collector's portrait: Roger Fisher collects Scania
 IMC 1:50 Demag AC 250-5

Our leading theme: trying to hold on to summer with the Fiat 690 T1 under palm trees. The model is from René Tanner. The Caterpillar 6015B has been anxiously anticipated by collectors and IMC is delivering the Demag AC 250-5, the first of the three new 250 tonners of the year.
