Collecting

At the age of 15, Albert Lutz found a brown box in a tool store. This encounter was the beginning of a 40 year long passion for collecting ...

Tin plate models made by Gama were a well-respected brand name until the 60s. The mobile excavator model introduced here, # 285/1 introduced first in 1956, was operated by cable remote control ...

Models

The Terex AC 1000 model was released a year and a half after the initial announcement. We supplement the article with an interview of the test driver ...

Surprisingly, the Liebherr L 576 in 1:50 arrived from Conrad. This new wheeled loader model fits nicely into the existing model series of the Liebherr wheeled loaders and therefore we put it under the magnifying glass ...

Current

Michael Compensis shows, in a very instructive and detailed way, how to make your own decal lettering and so embellish your very own special model ...

The main focus in part four of our Diorama series is on buildings and their construction. Markus Lindner describes the kinds of techniques that have been used successfully in creating various types of buildings in scale ...
