## Collecting

Rolf Rhyner discovered his love for the miniature construction machine on a stand at a fair and only a few years ago purchased a computer to be better informed about new models ...

Road construction machines appear infrequently on the model horizon. A sure bet for successful new models is the firm of Hamm. The newest example is the road roller H 13yi in two versions released by NZG ...

## Current

The wheeled loader, Cat 988, has been available for half a century now. Urs Peyer sings its praises for the jubilee in an article chronicling the history of its development ...

During a short break, Markus Lindner's diorama reports were missed. With his newest project, a scrap yard diorama, he sets the stage for the many new models of transshipping equipment now available .....
