Trucks & Construction Issue 6-2017

Models of trucks, construction machines, trams and heavy haulage

Context included

Scratch built 1:50
Berna 5VF

Caterpillar D10T2

Mack N61 S

Fruehauf Story

Komatsu PC138USCL-11

Our leading themes: The model of the Berna 5VF and Jumbo trailer is the result of René Tanner's love of Scandinavian freight traffic. The Cat D10T2 from Diecast Master is ringing in the fall new release season and the Tadano ATF 220G-5 from WSI is also ready for collectors' display cabinets.
